### 'Lost at the Front'

**With George Sidney and Charlie Murray**

The Shell Shocks they get in France were mild compared to  
the Sho Shocks they got when they wandered into the Women's  
Battalion of death. Women to the right of them! Women to  
the left of them!

Two of the greatest comedians on the screen, They went  
"over there" to fight for their country, but had more trouble  
catching up with the war than they had when they got to the  
front!

## Grain is Rushed To Elevators

The elevators in town were open at  
five o'clock on Monday morning and  
from the outset were rushed with  
grain from every direction, as every-  
thing possible had been loaded on Sun-  
day while the elevators were closed.  
At the rate grain is being delivered  
now it will tax every possible facility  
of both elevators and railroad to  
keep the grain moving. Yields are  
being reported that indicate an eclipse  
of even the famed 1916 crop in yield  
per acre, and to leave that harvest  
year almost negligible when volume  
is considered. The amount of straw  
to be handled is unusually large and  
where grain was down or tangled the  
sheaves are difficult loading for the  
men employed. Practically everything  
is now cut, the grain left for com-  
bines being the latest to be finished.  
Much of the late cut grain provided a  
much better sample than was expected,  
but where it had not thoroughly  
ripened before going down it was not  
so satisfactory. The weather at the  
first of the week is almost perfect  
for threshing operations and every  
advantage is being taken of this fact.  
Light clouds have been plentiful at  
all times but general hopes are en-  
tertained of a continuance of present  
favorable conditions.

## Men in Demand But Outfits Running

Men have been in constant demand  
recently, the supply always being be-  
low the demand. However, the outfits  
all appear to have been able to keep  
running, although at times short-  
handed. Quite a few men have driven  
over from Montana at the conclusion  
of threshing operations there and  
their arrival here has been an accept-  
able addition to the threshing force  
as all are experienced men with both  
horses and forks.

## No Swine Club Shows This Fall

It has been found necessary by the  
Department of Agriculture to cancel  
arrangements made to hold Boys' and  
Girls' Swine Club shows in Calgary  
and Edmonton during the coming fall,  
owing to the recent outbreaks of in-  
fantile paralysis at a number of points  
in the province and the consequent  
unwillingness of parents to allow their  
children to travel far from home. The  
pigs fed by club members in various  
districts will be marketed as they are  
ready under the direction of local club  
superintendents, and the carlot prizes will  
be awarded as previously arranged,  
but the other features of the shows,  
including judging competitions for the  
railway trophies and the trip of the  
winning teams to Toronto, must un-  
fortunately be abandoned this season.

## R. B. Bennett Popular Leader

The selection of Hon. R. B. Bennett  
as the leader of the Conservative  
party in the Dominion is a tribute to  
the ability of this talented resident  
of Alberta, and also to the growing  
influence of Western Canada in Dom-  
inion affairs. The new leader is to re-  
ceive a great reception on his return  
to Calgary in the near future.

Miss Melba McGillivray, attending  
Mount Royal College, Calgary, spent  
the week-end at her home here.

"Slim" McLeellan has secured the  
job of driving C. S. Milliken's school  
van during his wait for the return  
of strength to his injured leg. He  
hopes to be ready for any kind of  
work in a short time.

## JOPLINGS

## Alberta Exhibits For Toronto

Alberta will be well represented at  
the Agricultural Jubilee for the Dom-  
inion which is to be a feature of the  
Toronto Royal Agricultural Winter  
Fair in November. The exhibit of  
agricultural products from this prov-  
ince which attracted so much favor-  
able attention at the World's Poultry  
Congress, and since at a number of  
large fairs throughout the middle-  
western states has been improved by  
the addition of a number of new fea-  
tures and will be sent to Toronto as  
Alberta's contribution to the Jubilee.  
Alberta grains, grasses and vegeta-  
bles this season are well worth the  
attention they attract when shown  
outside the province.

## Telephone System Is Prosperous

Establishing a new high record in  
the history of the system, toll busi-  
ness over Alberta telephone lines dur-  
ing the month of September, 1927,  
amounted to \$120,465.30, being an in-  
crease of over \$31,000.00 as com-  
pared with the corresponding month  
in 1926. A total of 428 stations were  
added to the system in the month,  
247 of these being in towns and cities  
and 181 on rural lines.

Miss Kathleen Watkins was a vic-  
tor to her parents over the week-end,  
returning to the city on Monday.

Mrs. Steves is erecting a residence  
just north of U. G. Anderson's. A  
cellar has been completed and every-  
thing is ready for the superstructure.

J. M. Moffatt, received a car of  
Chevrolet autos on Friday of last  
week. They include an Imperial Lan-  
dau, which was greatly admired by  
the large number who looked the  
shipment over.

Mr. and Mrs. R. I. Starr, of Sun-  
burst, Montana, were the guests of  
Mr. and Mrs. Irving Fisher over the  
week-end. While here they received  
many old acquaintances made during  
their residence here of many years.

Fred Clover was taken ill on Fri-  
day with what developed later to be  
chickenpox, and was confined to his  
house in consequence for some days.  
His place in the elevator was taken  
on Monday by a buyer from Calgary,  
who will relieve him until fully re-  
covered.

**NOTES AND COMMENT.**

Champion enjoyed the frost (7) distinction of being the only town in this part of the country to observe the restrictions in regard to the closing of elevators on Sunday issued by the attorney-general's department some days ago. The withdrawal of these restrictions was news in Vulcan in time to be published in the newspaper issued on Friday, but no word

was received by the operators here. In consequence farmers here were forced to construct bins out of expensive lumber, as the lumber yard was practically stripped of the material ordinarily used, and in many instances grain was piled on the ground. Even where bins were available the expense of shovelling the grain out of the bins again in order to get it to market was involved. When it was found that the elevators were wide open in all adjoining towns but little love was expressed for whatever was responsible for the situation here and an inquiry is being made to ascertain just why this point was singled out in this respect. Present indications are that fully 1,500,000 bushels of grain will be marketed in Champion this fall and even the handicap of the elevators being closed for one day may prove a serious matter before the grain is all saved. Indignation was general in regard to the order that the elevators be closed. To be the only point ignored in releasing the order has not improved the situation.

Following is the statement from the Commissioner of the Alberta Provincial Police as published:

—Regarding threshing and elevators being open on Sunday, after taking the matter up with the Attorney General's Department last year we, as well as this, regarding the Lord's Day Act I advised the various districts by circular that elevators should not remain open for business on Sundays; but, after going through certain parts of the province within the last ten days, I issued another circular to the effect that no interference was to be made in any harvesting work for the balance of this season, on account of the inclement weather, the lateness of the season, and the abundant crops, and that, in my opinion, this work was absolutely necessary and the Attorney General's Department have approved of this order. No doubt it is understood that the government, and particularly myself being the head of this force, have been very severely criticized by the Lord's Day Observance society for allowing any work to be done on Sundays, especially with regard to elevators being open. However, the farmers of this province will not be bothered for the balance of the season with regard to any restrictions.

While there is no doubt the majority of the people in this country object to indiscriminate use of the Sabbath for work, under ordinary circumstances, it is equally apparent that where a practical crisis exists, as in the saving of the present enormous crop, there is no difference of opinion as to the removal of anything that would have a retarding effect on the actual saving of grain in the field either uncut or in the stack, and the Police Commissioner's letter includes the most outstanding reasons for this attitude. The future may prove the anxiety in regard to the threshing of the crop and its delivery to the elevators to have been more or less unnecessary, weather conditions for the past six weeks and the critical period of the season which has been reached, naturally induce the making of every possible effort to get the grain safely housed at the earliest moment. The action of the Police Commissioner and the Attorney-General's department, although rather late in reaching this point, will be recognized as the only reasonable procedure under existing conditions.

An attempt will be made this winter to demonstrate that given a good road, automobile traffic can be carried on successfully all year round in Alberta. The Probus Club, a business men's organization of Calgary, has undertaken to keep the highway

between Calgary and High River clear of snow during the winter months to stimulate business in the city and encourage motor traffic from country points along this line.

**Why Thousands are buying Whippets**

This Chart shows graphically why people buy the Whippet. Based on reports from thousands of owners. Reasons shown in relative importance.

52% of owners bought the Whippet because of its economy of operation. No other car offers the economy of 25 miles to the gallon, compared with 12 to 15 miles to the gallon of other cars.

33% of owners bought the Whippet because of its extra safety. Offered by Special Mechanical, their wheel brakes and low down-vision. These features are not available in any other car.

Several thousand owners speak highly of the Whippet's road performance. The Whippet is a car to be proud of. It is a car that is a pleasure to drive. It is a car that is a pleasure to own. It is a car that is a pleasure to sell.

## J. FRED SCOTT LL. B.

Barrister, Solicitor, Notary Pub-  
lic, of 213 Lancaster Building Calgary  
will be in Champion every Thursday  
afternoon, in old Municipal office.

Miss Ella Stephenson, a recent  
graduate of business college, has re-  
ceived a position in the Calgary  
Grain Exchange.

O. E. Simmers is building an addi-  
tion to his residence, which will be  
used as a kitchen. It is already practi-  
cally completed.

Mrs. C. Williamson attended the  
funeral of Mrs. C. White at Nanton  
last week. The deceased was Mrs.  
Williamson's cousin.

Graf Gunderson is able to be out  
on crutches after an accident some  
weeks ago, in which he suffered a  
broken bone in his leg just above the  
ankle.

Mrs. Kealey, of Brant, was the  
guest of Mrs. G. M. Campbell for  
some days this week. Mrs. Kealey is  
the mother of Mrs. J. McLeod of  
Brant.

Monday afternoon provided an ex-  
hibition of how the wind can blow in  
this part of Alberta and interfered  
seriously with threshing operations  
for several hours, many outfits shut-  
ting down.

The annual feeder cattle show and  
sale is in progress at Calgary this  
week. Owing to the incomplete har-  
vest the usual interest in this event  
has not been possible in this part of  
the country.

The large number of trucks in use  
this year are going to add largely to  
the difficulty of keeping elevator  
rooms available, as there will be a  
great deal less grain stored in bins  
than there living at considerable dis-  
tances from town. Trips that were  
impossible for horses are made with  
the trucks.

## SETTING A STANDARD

U.G.G. Elevators have set, throughout Western  
Canada, a standard of service and treatment  
in handling grain for farmers.

It pays to have a U.G.G. Elevator at your  
station and it pays to make use of it.

Deliver your grain to:

## UNITED GRAIN GROWERS LTD

Elevator at Champion  
COAL FLOUR FEED

Bad weather has made harvesting a  
matter of great difficulty in southern  
fields being so wet as to prevent ma-  
chinery being used, cutting being done  
with cutting hooks. We have had  
difficulties in Alberta, but nothing to  
compare with this.

K. R. McLean, Sight Specialist, will  
make his regular monthly profes-  
sional visit to Champion on Wednesday,  
October 26th, at Dr. McIntyre's of-  
fice. Appointments may be made at  
the Drug Store, Calgary office with  
Dr. J. A. Milligan, Eye, Ear, Nose and  
Throat, 212 Herald Building.

Interest in the many flying events  
being pulled off is waning, as are the  
repeated attempts being made to  
swim the English Channel, whether  
the flights or the swimmers are suc-  
cessful or not. The public shows the  
effects of getting too much of what  
should be called a good thing. Too  
many repetitions weary the greatest  
enthusiasts.

## Entries Close

October 27th

Alberta exhibitors who contemplate  
sending entries to the Royal Agricul-  
tural Winter Fair at Toronto and the  
International Hay and Grain Show at  
Chicago are reminded that these ex-  
hibits are drawing near. Entries of  
grains for the Royal, which will be  
held November 16 to 24, must be in  
the office of the manager not later  
than October 27, and exhibits must  
reach Toronto and be in place not  
later than November 15. In the case  
of the International Hay and Grain  
Show, all entries have to be at Chi-  
cago not later than November 10,  
and all exhibits must be there not  
later than November 21. In connec-  
tion with this show exhibitors in Al-  
berta may send their entries in to the  
Department of Agriculture, Edmon-  
ton, and also send their exhibits to  
the Field Crops Branch of the De-  
partment, from where they will be  
forwarded to Chicago. In this case  
all entries should reach Edmonton not  
later than November 1 and all exhib-  
its should arrive not later than No-  
vember 5. Exhibits should be sent  
to the Provincial Government Clean-  
ing & Grading Plant, c/o W. J. Ste-  
phen, 9227 105th Ave., Edmonton.

## Provincial Corn

Show at Calgary

The prize lists for the Second Pro-  
vincial Corn Show, to be held in Cal-  
gary November 17 and 18, are now in  
print and are being distributed to the  
corn growers of the province. Classes  
are provided for all the leading var-  
ieties of field corn. Sweet corn and  
popcorn have not been forgotten. In  
addition to prize money totalling over  
\$500 six silver challenge cups are of-  
fered as championship awards. Those  
which were offered last year are again  
up for competition, and two more  
have been added. The Lethbridge  
Herald trophy is for the best ten  
ears of Alberta grown corn in the  
show, including flint, dent, sweet  
corn and popcorn. The other new  
trophy has been contributed by the  
Calgary Herald and is for the best  
ten ears of field corn, competition for  
which is open to exhibitors from  
Manitoba and Saskatchewan as well  
as Alberta. As there has been a lot  
of good corn grown this year in  
Saskatchewan, particularly it is ex-  
pected that there will be keen com-  
petition for this piece of silverware.  
The boys and girls under seventeen  
years have two classes to themselves  
—one for white flint and one for yel-  
low flint. In each class there are five  
prizes offered, and a silver chal-  
lenge cup for the best ten-ear ex-  
hibit. Prof. Clyde McKee, Bozeman,  
Montana, will judge the corn and will  
address a public meeting in the af-  
ternoon of November 17th. As Prof.  
McKee is recognized as an authority  
on corn growing and judging, he will  
be well worth hearing. Copies of the  
prize list may be secured by writing  
the secretary, James Murray, Medi-  
cine Hat.

## When You Talk Washer You Naturally Think of 'MAYTAG'

### WHY?

Because Maytag is in a Class by Itself!

The Maytag is the fastest and cleanest washer on  
the market. The Maytag will last a lifetime,  
There many exclusive features which only Maytag  
can give you that make it superior to all other  
machines.

### The Engine

Simple, easy to start and operate. When you fill  
your tank with gasoline you automatically oil it  
at the same time.

### Service

Your service is always at your door, and Maytag  
guarantees mean all they say. Maytag reputation  
and sales are based on the service they render the  
users of their products.

### YOUR FIRST DUTY

Don't listen to our sales talk. Ask the owner of a  
Maytag machine what he thinks of it.  
Don't buy for price but buy for service.  
Don't buy until you are convinced what we say is  
true. You are welcome to use a Maytag in your  
own home. If it does not sell itself, don't keep it.  
What could be fairer?

The Safest and Most Powerful Car  
of its Type ever created

A SIX! Combining the engineering  
science of the Whippet with greater  
length, greater power, greater speed,  
greater insurance.  
Performance without precedent in a  
car of this size and weight. Without  
doubt the most powerful car of this  
type ever created.  
A car that will do over 40 miles an  
hour as easily as a motorcar.  
A car that will throttle down to 3 miles  
an hour in high gear... and then pick  
up to 30 in 10 seconds.  
A car providing the necessary safety  
of a sedan, but with more power  
and greater insurance than any car  
of its weight that any car of this size  
of price.

A car built low to the ground for  
greater safety, with a completely  
new body—inspired by the latest  
trends in motorcar design.  
See the Whippet Six. Compare it  
with the point with the wheel where  
the motorcar is so vulnerable. You  
will see the difference. The Whippet  
Six is the car of the future.

## GIRL AVIATOR IS RESCUED BY A PASSING VESSEL

Paris.—Ruth Elder failed by a scant 800 miles of accomplishing the feat of being the first woman to cross the Atlantic by aeroplane.

She and her captot, Captain George Haldeman, were forced down on the waters of the Atlantic by a broken oil pipe and were taken aboard the Dutch tanker *Baronrecht*, which rescued them. Their plane, "The American Girl," was estimated to have travelled 2,600 miles along its 2,500-mile journey.

The plane was destroyed by fire as the ship was attempting to salvage it, the ship reported. The *Baronrecht* was en route to the Azores.

The first news of the landing and rescue arrived here in a radio message Miss Elder sent to the Paris office of the Associated Press.

Amstcrdam.—"We are safe and are no one worse off," Ruth Elder radioed her mother, Mrs. J. O. Elder. The message, sent from the tanker *Baronrecht*, which picked up Miss Elder and her co-pilot, George Haldeman, and relayed by the steamer *Bayano*, read:

"We are safe and are no one worse off. Landed by S.S. *Baronrecht*. Wire you please later. Love, Ruth."

## Employees Can Buy Shares

Sir Alfred Mead To Try Out Co-Operation Plan

LONDON.—Co-operation between employers and employees, which is one of the new mottoes in the United States, is about to be tried out here by Sir Alfred Mead with 1,000 employees of his Imperial Chemical Industries. Sir Alfred's idea is to make a capital fund of every one of his factory hands. Through his office, the employees can buy Imperial Chemical shares, quoted at 20 shillings, for 27 shillings, 4s. pence. The only restriction is that they do not speculate. He will award free shares to workers on the basis of a man earning £1,000 annually or less getting a free share for every pound purchased. The workers can vote on their stock.

"That will create a direct bond between the company officials and workers," Sir Alfred said. "Industrial peace will not be gained by pleasant talk and idle discussion. It will be gained by actual contact between the men and employers working out practical schemes."

## Irish Free State

President Cosgrave Makes Changes In His Cabinet

DUBLIN.—President Cosgrave, re-elected as chief executive of the Irish Free State council in the Irish Free State, has made five changes in his ministry.

The changes that were made give Hon. Ernest Blythe the postmaster-general as well as the portfolio of finance minister. Hon. Patrick McGilligan took over the interior and education in addition to his Ministry of Commerce, while Hon. James Fitzgerald Kenney, became Minister of Justice.

After a four-hour debate on the whole government policy the bill approved by a vote of 12 to 70, President Cosgrave's cabinet.

## May Injure Empire Trade

Change In Australian Tariff Is Viewed With Concern

ACKLAND, N.Z.—A detriment to the export trade of Canada as well as to British is predicted by the Dominion trade tariff which lowered the duty on a large class of printing and writing papers in sheets, that bringing Canadian and Empire exporters into line with the foreign.

Formerly the foreign products paid a 25 per cent. ad valorem duty, and in some quarters of the trade the change is viewed with concern as it is felt that a severe blow will be struck at Empire trade. One importer estimates that at least half the trade will go to foreign countries. Another merchant says that several firms have cancelled orders for Empire products and are awaiting events.

## New Rural Mail Routes

REGINA.—The necessary authority has been given by the postmaster-general for the establishment of ten additional rural mail routes in the Saskatchewan postal division, according to John Channing, district superintendent of postal service for this area. One of the new routes which will be known as Saskatchewan 5, will go from Saskatoon to Floral.

## Says Baffin Land Habitable For Whites

But Is Not Desirable Place Dr. Livingston Place

OTTAWA.—Baffin Island, although not as pleasant a place to visit for white men as more Southern latitudes, is nevertheless capable of sustaining a vigorous and contented white population. This is an essential point in the report of Dr. L. D. Livingstone who has just returned from 15 months duty as medical officer in the Canadian Arctic Archipelago. Dr. Livingstone who was a member of the staff of each annual expedition to the Arctic in the interval between 1922 and 1928, and in the spring and summer of this year, in a detailed inspection of the natives in the interval when it has been possible to see on his previous annual visit.

The need of educating the Eskimos in wild life protection, the practice of economy, and in methods of hygiene is strongly urged by Dr. Livingstone. The habit of putting away supplies of food and other necessities for reasons of security and a knowledge of sanitation would greatly improve general conditions among the Eskimos of the Eastern Arctic.

## Plans For Willingdon's Visit To Washington

Program Being Worked Out By Canadian Legation and State Department

WASHINGTON.—The tentative program of entertainment of Lord Willingdon, December 18, is now being worked out by the Canadian Legation and state department. It will include with the first Canadian Legation General has made to Washington since that of the Duke of Connaught in war years, and the first time Canada's titular head has been entertained in Washington on Canadian territory.

His Excellency will exchange views with President Coolidge and members of the cabinet and will be given the usual recognition of a representative of his country.

It is understood that the visit has no special purpose except to establish friendship of personal contact between the governmental and heads of the U.S. government.

On previous occasions the Canadian Government has been a guest at the British embassy. The difference on this occasion will be that he will be able to entertain officials at the Canadian Legation on the representative of Crown in Canada.

## Invited To Deliver Address At Washington

Premier King To Take Part In Dedication Of Memorial

OTTAWA.—It is reported here that Premier King has been invited to deliver an address at the dedication of a memorial to the Canadian soldiers who fought in the American Expeditionary Force during the Great War, and have their lives for the common cause.

It has been suggested, and the suggestion is being considered, that the prime minister be escorted by a contingent of Canadian troops at the ceremonies which will take place October 29.

## Winter Fair Dates

First Saskatchewan Show Will Be Held November 1

REGINA.—The first of the different sections of the Provincial Winter Fair were approved at a meeting of the board of directors of the Regina Exhibition Association held under the chairmanship of President H. G. Smith.

The show and winter show, it was decided, will be held on November 1 and 2; the dress parade show, on November 3; live poultry exhibition, January 17, 18 and 19; and horse and cattle show, March 27-29.

## An Important Agency

OTTAWA.—The prime minister of Canada will face an important agency of nearly four years when the conference of the premier presiding to be the most important of its kind since Confederation. In view of the fact that the conference will be held in the future, the prime minister will come up for discussion and perhaps action. While the conference will have no actual legislative or administrative authority, the prime minister will be far-reaching, as they will affect the legislative program of the future of the nine provincial governments during the next year.

## Premier Offers Congratulations

Sends Wire To Hon. R. B. Bennett On His Appointment To Leadership

OTTAWA.—Among the first to telegraph congratulations to Hon. R. B. Bennett, K.C., who was selected by the national convention to be leader of the Conservative Party, was the Right Hon. W. L. Mackenzie King, Prime Minister of Canada, and leader of the Liberal Government. The Prime Minister dispatched the following wire to Mr. Bennett:

"I have just learned of your selection as leader of the Conservative Party of Canada, and desire to tender to you very hearty congratulations on the confidence thus expressed in you by the members of your party, and on the distinguished honor which they have conferred upon you."

The telegram bears the Prime Minister's signature.

## MOVE TO SPEED UP IMMIGRATION FROM BRITAIN

Willingdon—Adoption of a quota policy in Canada to restrict continental immigration was not regarded as feasible, Hon. H. H. Willingdon, Minister of Immigration and Colonization, told a delegation of the general synd of the Anglican Church, which conferred with him here, but he gave his assurance that his department would do all it could to promote British immigration and to keep control over continental immigration.

The delegation consisted of Archbishop Macheson, the prime of all Canada, Chancellor, Macgill, Mr. Justice Denison, J. W. E. Armstrong, W. G. Styles, Reid, G. P. Woods, Loftus H. Rind, Toronto; and Canon York.

A statement issued said: "Mr. Forke stated that the subject of immigration would occupy the important place on the agenda of the conference between the Dominion and provincial governments in November. The minister expressed a desire to meet representatives of the churches and other voluntary organizations interested in immigration to confer with him at Ottawa with a view to aid operation in securing an increased flow of British settlers for Canada."

The minister expressed his voluntary assistance that can be rendered by the churches in developing migrations for British families for land settlement, farm workers and household workers, to receive the assisted passage rate. He mentioned that in the past year more than 5,000 Britishers have been thus resettled.

"Mr. Forke told the delegation that the assistance to be offered to enable British trade who make good in Canada as farm workers to take up land of their own will be applicable to boys placed out through the church of England at Ottawa with a view to aid operation in securing an increased flow of British settlers for Canada."

A truck driven by one of J. N. Beaubier's men collided with a four horse team belonging to G. F. Smith in front of Gunder Norison's store on Tuesday. A

broken tongue, whiffletrees and harness resulted, fortunately without serious injury to either of the drivers. The truck was slightly damaged. Two minor accidents also occurred the same day.

## Wor. Grand Matron O.E.S. Coming

Mrs. Jennie G. Carmichael, Wor. Grand Matron of the Grand Chapter of Alberta, O.E.S., will pay her official visit to Champion Chapter, No. 36, on the evening of Wednesday, Oct. 26, and will be the guest of Mrs. J. N. Beaubier while in town. All O.E.S. members in the community are invited to attend. The meeting will be held in Campbell's hall.

## Wheat Yielding 40 to 50 Bushels

Wheat is selling into town in tremendous volume, the six elevators being filled to capacity with the exception of special bins. Never before has wheat been delivered here in such volume, the large number of trucks employed being largely responsible.

Following are a few instances of good yields that have reached this office, with many more to follow next week.

From summer-fallow T. R. Jopling threshed 54 bushels per acre.

Sletto Bros. threshed 11,085 bushels from 320 acres of stubble in crop, and this is running over four to 5 bushels on the machine measure when delivered at the elevator.

As far as threshing has progressed Clarence Davis' crop promises to yield over 20 bushels per acre.

From 135 acres on his farm near Snake Valley Geo. Mark realized 57 bushels per acre, which is grading No. 1 at the elevator.

From 80 acres of field irrigated Fisher threshed 45 bushels per acre.

Anthony Ash threshed 3,000 bushels from 70 acres.

After suffering loss from hail Jack Doyle threshed 15 bushels per acre of No. 2 wheat.

J. O. Reid, of Aldridge, is here looking after interests he still retains in this vicinity. He proposes staying until threshing is over. He concluded threshing operations on his Aldridge farm some time ago, realizing a very satisfactory yield.

## Fine Farm Changes Hands

Messrs. T. and M. Sletto have purchased from the E. Zang estate a section of land situated some twelve miles northwest of Champion, which is regarded as one of the finest farms in the country, with a specially fine residence and other buildings. The consideration reported is \$32,000.

## Believes In Country Weeklies

Referring to the advertising campaign now being carried on in country weeklies by General Motors of Canada, R. S. McLaughlin, president of that organization, says:

"I believe in the country weekly. I believe that no printed matter in Canada is more thoroughly read, or has more influence than the pages of these home town papers. I believe that this campaign will tell the story of General Motors of Canada to many thousands of people who do not realize the importance to Canada of this great Canadian Institution and the reasons why General Motors cars are such outstanding values. If this proves to be the case, I hope that a campaign of this character can become a permanent part of our advertising program."

### Re Work on Sunday

Editor, Champion Chronicle

Dear Sir:—Having noted your expressed opinion, in last week's issue, of the Sunday reception of grain at elevators, I would like to say that I am in sympathy with the spirit in which the comment was made and am convinced of the sincerity of the remark that you are not advocating Sunday work where the waste involved would not justify the use of the Sabbath, or where the work might be done in season. However, I feel sure you are prepared to allow a difference of opinion as to whether the recent order re closing of elevators was "unnecessary and unjust."

Conditions have admittedly been bad. The question then is: "Is Sunday labor a remedy or a delusion?" If by this time elevators are becoming clogged the difficulty becomes involved with the whole freight handling problem.

I would agree that everything advisable rather than "possible" should be done to facilitate the getting of the crop into the elevators. The requirement of the Dominion law that people should not engage in their ordinary occupation on Sunday has never been regarded by any considerable body of producers as curtailing their output. Where records of work are kept it is generally agreed that Sunday rest increases quantity of output. When Lloyd George became head of the munitions department and multiplied production plans eight fold to meet a life and death need for more shells for the great war, it was found in a very few weeks that Sunday labor had to be abandoned.

Now I realize that such an argument does not cover work the beginning of a run of good weather, but when a full week's work has been accomplished before a Sunday labor we are going against a proven principle of experience. Many times men who were not church attendants have told me they had lost time by plugging away the full seven days of the week. Men are often caught in the vicious circle

## All Canada Agrees "It's Better because it's Canadian"

"It's Better because it's Canadian" . . . a year ago General Motors of Canada gave first utterance to this phrase.

"It's Better because it's Canadian" . . . newspapers and magazines all over Canada took up the theme, impressing on Canadian citizens the pride they should justly feel in the products of their country.

"It's Better because it's Canadian" . . . the phrase has struck home, has become a challenge to the Canadian manufacturer and to the Canadian buyer.

"It's Better because it's Canadian" . . . it is a fact. And because it is a fact . . . because General Motors was inspired to put it into words . . . because Canadian editors added to its impetus . . . because Canadians accepted it . . . and because the standard of Canadian quality proved it true . . .

. . . all Canada has enjoyed a greater measure of prosperity; and General Motors of Canada, with many other Canadian manufacturing organizations, has just completed the most successful year in its history.
